

Project Design Phase-II
Data Flow Diagram & User Stories

Date	29 June2026
Team ID	
Project Name	AI Powered Debt Relief & Financial Recovery Platform
Maximum Marks	4 Marks

Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

Example: [\(Simplified\)](#)

Example: DFD Level 0 (Industry Standard)

Flow

1. User configures credentials for the Watson Natural Language Understanding service and starts the app.
2. User selects data file to process and load.
3. Apache Tika extracts text from the data file.
4. Extracted text is passed to Watson NLU for enrichment.
5. Enriched data is visualized in the UI using the D3.js library.

User Stories

Use the below template to list all the user stories for the product.

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
Customer (Mobile user)	Registration	USN-1	As a user, I can register for the application by entering my email, password, and confirming my password.	I can access my account / dashboard	High	Sprint-1
Customer (Mobile User)	Registration	USN-2	As a user, I will receive confirmation email once I have registered for the application	I can receive confirmation email & click confirm	High	Sprint-1
Customer (Mobile User)	Registration	USN-3	As a user, I can register for the application through Facebook	I can register & access the dashboard with	Low	Sprint-2

				Facebook Login		
Customer (Mobile User)	Registration	USN-4	As a user, I can register for the application through Gmail	User can register and access the dashboard using Google Sign-In.	Medium	Sprint-1
Customer (Mobile User)	Login	USN-5	As a user, I can log into the application by entering email & password	User is authenticated and redirected to the dashboard.	High	Sprint-1
Customer (Mobile User)	Dashboard	USN-6	As a user, I can add my financial details such as income, expenses, and savings.	Financial profile is saved successfully.	High	Sprint-2
Customer (Web user)	AI Recommendation	USN-7	As a user, I can receive AI-generated financial relief recommendations.	Personalized recommendations are displayed based on profile data.	High	Sprint-2
Customer Care Executive Administrator	Relief Schemes	USN-8	As a user, I can view eligible financial relief schemes.	Relevant schemes are displayed according to eligibility.	High	Sprint-2
Customer (Mobile User)	Application	USN-9	As a user, I can apply for a relief scheme online.	Application is submitted successfully and confirmation is displayed	Low	Sprint-2
Customer (Mobile User)	Chatbot	USN-10	As a user, I can ask financial questions to the AI chatbot.	Chatbot provides relevant responses within a few seconds.	High	Sprint-2
Customer (Mobile User)	Notifications	USN-11	As a user, I receive notifications about application status and deadlines.	Notifications are sent via email or app alerts.	High	Sprint-2
