Project Name	AI Powered Debt Relief & Financial Recovery Platform
Maximum Marks	2 Marks

Problem – Solution Fit Template:

The Problem-Solution Fit simply means that you have found a problem with your customer and that the solution you have realized for it actually solves the customer's problem. It helps entrepreneurs, marketers and corporate innovators identify behavioral patterns and recognize what would work and why

Purpose:

- ☐ Solve complex problems in a way that fits the state of your customers.
- ☐ Succeed faster and increase your solution adoption by tapping into existing mediums and channels of behavior.
- ☐ Sharpen your communication and marketing strategy with the right triggers and messaging. ☐ Increase touch-points with your company by finding the right problem-behavior fit and building trust by solving frequent annoyances, or urgent or costly problems.
- ☐ **Understand the existing situation in order to improve it for your target group.**

Template:

Define CS, fit into CC	1. CUSTOMER SEGMENT(S) CS Who is your customer? (e.g. working parents of 2-5 yrs. kids)	6. CUSTOMER CONSTRAINTS CC What constraints prevent your customers from taking action or limit their choices of solutions? (e.g. spending power, budget, no cash, research connection, available devices)	5. AVAILABLE SOLUTIONS AS Which solutions are available to the customers when they face the problem or need to get the job done? What have they tried in the past? What pros & cons do these solutions have? (e.g. pen and paper is an alternative to digital marketing)	Explore AS, differentiate
	3. JOBS-TO-BE-DONE / PROBLEMS J&P Which jobs-to-be-done (or problems) do you address for your customer? There could be more than one unique-different sides.	9. PROBLEM ROOT CAUSE RC What is the real reason that this problem exists? What is the back story behind the need to do this job? (e.g. customers have to do it because of the changing regulations)	7. BEHAVIOUR BE What does your customer do to address the problem and get the job done? (e.g. directly-related: find the right note paper/matrix, calculation usage and benefits, indirectly associated: customers spend less time on understanding work) (e.g. Googlepay)	
Identify strong TR & EM	3. TRIGGERS TR What triggers customers to act? (e.g. seeing their neighbour installing solar panels, reading about a more efficient solution in the news)	10. YOUR SOLUTION SL If you are working on an existing business, write down your current solution first, fit in the canvas, and check how much it fits really. If you are working on a new business proposition, then keep it blank until you fit in the canvas and come up with a solution that fits within customer limitations, solves a problem and matches customer behaviour.	8. CHANNELS of BEHAVIOUR CH 8.1 ONLINE What kind of actions do customers take online? Extract online channels from BT	Extract online & offline CH of BE
	4. EMOTIONS: BEFORE / AFTER EM How do customers feel when they have a problem or a job not done right? (e.g. frustration - confusion, no control - use it in your communication strategy & design)		8.2 OFFLINE What kind of actions do customers take offline? Extract offline channels from BT and use them for customer development.
